

PORTFOLIO-SITE

PROFESSIONAL SUMMARY:

Detail-oriented SDET with strong knowledge of both development and testing. Skilled in building automation frameworks for web and mobile apps using Java, Selenium, Appium, and TestNG. Experienced in CI/CD integration, automated JIRA reporting, and generating clear test reports. Able to design efficient test strategies by leveraging frontend and backend understanding. Collaborative, reliable, and focused on delivering maintainable test solutions.

SKILLS	
Languages – Java, Golang, JavaScript,, SQL, Postgresql Frameworks – Selenium, Appium, TestNG, REST Assured, React, AngularJS Tools – Jenkins, Git, Docker, Postman, JMeter, MySQL, Maven, Linux, GitHubActions	
EXPERIENCE	
SDET-1 at Medkart	Feb 2026- Present
- Architected and maintained a scalable automation framework supporting Web, Mobile, API, Database, and Batch Job validation. - Built reusable framework modules for session management, reporting, data handling, and test utilities, reducing test development effort. - Developed robust REST Assured automation suites with reusable request builders, validators, authentication handlers, and assertion libraries. - Created custom Excel reporting solutions using Apache POI and SXSSF for large-scale execution reporting and analysis. - Integrated PostgreSQL and MySQL validations to automate backend verification of financial transactions, memberships, and rewards data. - Designed polling and job-monitoring mechanisms for validating long-running background processes and scheduled workflows. - Integrated Jenkins CI/CD pipelines and enhanced framework observability through detailed logging, reporting, and debugging utilities.	
SDET-1 at Bhanix Finance and Investment Limited	Dec 2024- Feb 2026
- Designed and owned scalable Web (Selenium–TestNG) and Mobile (Appium) automation frameworks using Java and Maven. - Automated 2000+ web and 150+ mobile end-to-end workflows covering fintech domains such as onboarding, payments, collections, dashboards, and admin flows. - Reduced regression execution time by 55% through parallel execution and optimized locator and wait strategies. - Integrated REST Assured with UI automation for complete API and UI validation. - Built UI–DB validation using MySQL assertions to ensure transactional accuracy. - Integrated frameworks with Jenkins CI/CD, enabling scheduled and on-demand regression runs. - Enhanced reporting with ExtentReports and Allure, enabling faster failure triage and reduced flaky tests.	
Assistant Manager at Jio Platforms Limited	Jul 2023 - Dec 2024
- Automated 100% of regression test cases for Jio.com using the Robot Framework, significantly reducing manual QA time and improving test reliability. - Built Bash scripts to automate repetitive backend and server-level tasks, improving execution efficiency and reducing test setup time by 30%. - Contributed to the development of an internal automation reporting portal that: Stored and organized historical execution reports for easy access. Monitored test execution and team activity, offering transparency to leads and stakeholders. Parsed and visualized report data into interactive graphs and tables, improving post-run analysis and reporting accuracy.	
Internship at Cashe	Jun 2022 - Nov 2022
- Contributed to the creation of the company training portal. - Worked with a variety of different languages, platforms, frameworks, CMS such as CSS, PHP, JavaScript, AngularJS, JQuery, WordPress.	

EDUCATION			
Degree/Exam	Institute	Score	Year
BCA	Acropolis Institute of Management Studies and Research, Indore	7.9/10	2020-23
HSC	St. Vincent Pallotti Higher Secondary School	73%	2019-20
SSC	St. Vincent Pallotti Higher Secondary School	77%	2017-18
